Human Resource Management

Facilitating Learning

This course has a total study load of 21 hours, with 14 hours of face-to-face instruction.

The following items made up the course:

- apply learning psychology to effectively design courses and lessons taking into account constructive alignment;
- select a variety of activating and interactive learning methods in lectures, tutorials and individual coaching to stimulate learning;
- select appropriate ICT applications based on learning psychology;
- explain the difference between assessment and evaluation;
- design an assessment plan;
- explain the vision on education of the TU/e and some of the available tools;
- refer students with functional impairments to the proper support departments;
- explain the influence of cultural differences in an international classroom.
